PRESS RELEASE

**Markov Processes International Strengthens European Operations,
Appoints Alexandre Dussaucy as Vice President, European Sales**

MPI Adds Regional Sales and Support Commitment to European Customer Base

SUMMIT, N.J. – June 13, 2007 – Markov Processes International (MPI), a developer of superior analysis and reporting solutions for the financial services industry, today announced the opening of an additional office in Paris, France to service European financial firms and the naming of Alexandre Dussaucy as Vice President, European Sales.

The announcement marks the second phase of MPI's official expansion into international markets, after the successful launch of MPI Japan in 2002, servicing Asian customers from the Tokyo office.

Alexandre Dussaucy has been named Vice President, European Sales and is charged with overseeing MPI's marketing, sales and expansion strategy in Europe. Dussaucy has nine years of experience with European financial services firms, including seven years of servicing asset management companies. Before joining MPI, he was Sales & Marketing Director at Advanced Fund Analysis, a French firm advising money managers in their fund analysis and selection processes, and previously Director of European Business Development at kasina, a New-York-based consulting firm for asset managers. Before joining kasina, he held leading positions at first-e, Europe's first Internet bank located in Dublin, and at Ernst & Young's Consulting Paris office.

"The growth of our European business enables us to strengthen our European resources. We are honoured to have Alexandre Dussaucy on board as he brings robust

knowledge of the European market. This commitment allows MPI to meet the needs of our European-based clients and to participate directly in what is a rapidly growing and sophisticated market” said Michael Markov, CEO of Markov Processes International, LLC. Mr. Dussaucy commented that “I have been impressed by the leadership of MPI in developing advanced quantitative and reporting solutions. I am very excited to develop European activities of MPI as I believe there are huge opportunities to assist financial services firms - including asset managers, multi-managers, fund of hedge funds, institutions and consultants – in their traditional and alternative investment research, marketing and reporting capabilities.”

MPI will be exhibiting its hedge fund analysis capabilities at the upcoming GAIM 2007 conference in Monaco, June 18-21, 2007 and its quantitative and reporting solutions at the upcoming Fund Forum 2007 conference in Monaco, July 2-5, 2007.
