PRESS RELEASE

**Markov Processes International Announces
Headquarters and European Operations Expansions**

MPI London Brings Regional Sales and Support Commitment to European Customer Base

SUMMIT, N.J. – June 26, 2006 – Markov Processes International (MPI), a developer of superior analysis and reporting solutions for the financial services industry, today announced the relocation and expansion of its headquarters in Summit, NJ. The new site, located at 25 Maple St., will include executive, sales, support, development and training operations.

Additionally, MPI announced the opening of its first European sales and services office based in London. MPI covers the Asian financial services market via its already established operations in Tokyo, Japan. MPI currently serves clients in more than 10 countries worldwide.

“All of our expansion efforts to date have been timed to maximize our resource capabilities and provide the best products and services for our clients – regardless of where they are located in the world,” said Michael Markov, CEO of Markov Processes International, LLC. “Having an on-site location in Europe will give our established client-base in the area regional support and will provide a strong foundation for expanding the number of European clients using MPI’s software for hedge and mutual fund analysis and reporting.”

MPI will be exhibiting its hedge fund analysis capabilities at the upcoming GAIM 2006 conference in Cannes, France, July 11-13, 2006. Visit booth #22 for more information.
